Re: FCC ID: U9O-HCTAG01

To Whom It May Concern:

The following application is submitted on behalf of our client, Synapse Wireless Inc., for evaluation of their model HCTAG01 for certification under FCC Part 15.249.

The Synapse Wireless HCTAG01 is an IEEE 802.15.4 battery powered RF device operating in the ISM 2.4 GHz band. The model HCTAG01 is intended to be worn by personnel or fixed to mobile assets to determine their location within proximity of a wall mounted RF Sensor. The equipment was evaluated for radiated emissions in three orthogonal orientations. The test report documents the worst case configuration.

The FCC ID: U9O-HCTAG01 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,
